EFFLOR-TREAT TECHNICAL APPLICATION GUIDE

DESCRIPTION

DISSOLVES AND REMOVES HEAVY CALCIUM & EFFLORESCENCE CONTAMINATION FROM ACID RESISTANT NATURAL STONE

*Suitable for masonry, brick, granite and other natural stone surfaces
Powerful, fast-working formula
Easy to use with sponge, brush or sprayer
Ideal for environments with high levels of salt air*

Universeal Efflor-Treat dissolves and removes heavy calcium, efflorescence, lime-scale deposits from masonry, brick, granite and other natural stone surfaces.

Universeal Efflor-Treat is not suitable for polished or finely honed stone surfaces which are sensitive to acid, such as limestone, marble, manufactured stone, etc.

DIRECTIONS FOR USE

- 1) First wet the surface, then apply **Universeal Efflor-Treat**, neat or diluted with water up to 1:10, dilution rate will be dependent on the extent of the contamination.
- 2) Immediately spread the product evenly on to the surface with a sponge, brush or sprayer. Leave to dwell for 10-15 minutes, scrub the surface then wash away with plenty of clean water. Do not allow the product to dry on the surface, in cases of heavy contamination this procedure may be necessary to repeat.

Please Note: In cases of doubt, test the product in an inconspicuous area first to determine the suitability of **Universeal Efflor-Treat**. This test is important as permanent damage to acid sensitive surfaces can occur. Surfaces such as chrome, enamel, wood, and other acid sensitive surfaces must be protected against splashes and vapours. Acid containing cleaners can develop vapours which may damage sensitive surfaces.

COVERAGE

15 to 30m² per litre.
Depending on the extent of contamination.

Usage Guidelines

Dwell Time	Applications/Coats	Application Method	Dilution
10-15 mins	1-2 applications	Sponge/ Sprayer/Brush	Up to 1:10

PRECAUTIONS

KEEP OUT OF THE REACH OF CHILDREN & PETS

H314: Causes severe skin burns and eye damage.
H290: May be corrosive to metals.
H302: Harmful if swallowed.
H302+312+332: Harmful if swallowed, in contact with skin or if inhaled.
H315: Causes skin irritation.
H317: May cause an allergic skin reaction.
H318: Causes serious eye damage.
H335: May cause respiratory irritation.

P264: Wash hands thoroughly after handling.
P280: Wear eye protection.
P305+351+338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P301+330+331: IF SWALLOWED: rinse mouth. Do NOT induce vomiting.
P302+350: IF ON SKIN: Gently wash with plenty of soap and water.
P304+341: IF INHALED: If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing.
P333+313: If skin irritation or rash occurs: Get medical advice/attention.
P337+313: If eye irritation persists: Get medical advice/attention.
