PAVE-SEAL TECHNICAL APPLICATION GUIDE

DESCRIPTION

SUITABLE FOR ALL TYPES OF PATIO, PAVING AND PATHWAYS

Quick drying easy application
Durable, stain-resistant protection
Enhances natural colours
Low odour water based formula

Universeal Pave Seal is a high performance patio and path outdoor sealer. Quick drying, the natural colours of the stone surface will be delicately intensified whilst offering a durable satin finish.

Universeal Pave Seal is a water-based polymerised protective coating that creates a durable finish on all kinds of outdoor stone, including patios and pathways. **Universeal Pave Seal** is very easy to apply, is self levelling and penetrates the substrate to protect against oil and water-based stains.

DIRECTIONS FOR USE

- 1) The surface to be treated must be completely dry and clean. Apply Universeal Pave Seal evenly with a sponge, roller, brush or sprayer. For best results the sealer must be applied evenly, any puddling of the sealer must be distributed evenly before allowing to dry.
- 2) After approximately 60 minutes check to see if the first application is dry and ready to receive a second coat. Repeat the process leaving approximately 60 minutes before receiving light foot traffic.

Please Note: In colder conditions the drying time may be extended, do not walk upon or apply further coats until the sealer is completely dry. Always try product in an inconspicuous area prior to use.

COVERAGE

Apply undiluted, coverage up to 20m²/L per coat.
Coverage will vary depending on surface texture and porosity.

Usage Guidelines

Drying Time	Applications/Coats	Application Method	Dilution
45-60 mins	1-3 coats	Brush/ Sprayer/Roller	Undiluted
