GROUT RESCUE COLOUR & SEAL TECHNICAL APPLICATION GUIDE

DESCRIPTION

Universeal Grout Rescue Grout Colour Sealer is a great way to restore and renew your wall and floor grout to a better than new condition. Grout Rescue colour sealer is available in 10 stylish colours, when fully cured, permanently seals the grout to help protect against mould, mildew and staining.

In many instances when the grout has become permanently stained and no amount of cleaning can bring back the original uniform clean look of the grout. In these cases it is best to apply **Universeal Grout Rescue Grout Colour Sealer** to restore the grout to a permanently sealed even coloured finish.

Universeal Grout Rescue Grout Colour Sealer can restore even the dirtiest, damaged and ugly grout to a new look finish. This process will permanently colour and seal the grout to make the grout look even better than the day it was installed. **Universeal Grout Rescue Grout Colour Sealer** is safe and simple to use, this unique formula allows for easy application by the professional tradesman and DIY homeowner

DIRECTIONS FOR USE

- 1) Prime the grout surface area with **Grout Rescue Pre-Treatment** on both old and new installations before applying **Grout Rescue**.
- 2) Make sure the grout joint is clean and thoroughly dry before applying **Universeal Grout Rescue colour sealer**. **Shake bottle & mix well before use.**
- 3) Apply product thinly onto the grout joint using a small, stiff brush or sponge working it evenly onto the surface. Wipe away any sealer from the tile surface instantly or within 60 minutes of application.
- 4) For best results apply two coats allowing 1-2 hours drying time between applications. Allow a further 48 hours drying time before wetting (using shower room) or cleaning the treated floor area. If using more than 1 bottle of a single colour for an application, mix all material together to ensure colour match and consistency.

PLEASE NOTE: Poor application, applying the product too heavy or thickly onto the grout joint can result in blistering, cracking and de-bonding of the colour sealer.

Important notes: This product is not recommended for use around porous surfaces i.e. unglazed tiles and natural stone surfaces as it could permanently stain. The colour chart must be used as a guide only; due to the original grout colour, texture, grout width, artificial and natural lighting the finished Grout Rescue colour may dry slightly different once applied. Always do a small on-site test prior to use.

Usage Guidelines

Drying Time	Applications/Coats	Application Method	Dilution
1-2 hours	1-3 coats	Brush/Sponge	Undiluted

SUGGESTED FIRST AID PROCEDURES

EYE AND SKIN CONTACT: Flush thoroughly with water, if irritation persists seek medical attention. **IF INGESTED:** Drink 1 to 2 glasses of water, do not induce vomiting and seek medical attention.

STORAGE INFORMATION

Product shelf life is 36 months when unopened and stored at room temperature. Store product in original container only. Close cap on container after each use. Use only when surface temperatures are between 50° F – 90° F (10° C – 32° C).

COVERAGE

3-15m² per 237ml bottle

This will vary dependent on tile size & grout width.
