GROUT HAZE REMOVER TECHNICAL APPLICATION GUIDE

DESCRIPTION

EFFORTLESSLY REMOVES GROUTING RESIDUES

Suitable to use on non-acid sensitive surfaces

Easy to apply

Fast-acting formula

Internal & external use

Universeal Grout Haze Remover effortlessly removes surface residues such as mortar and cement, efflorescence, encrusted and engrained dirt, rust as well as calcium & limescale deposits.

Universeal Grout Haze Remover can be used indoors and outdoors after the installation process or during construction. All surfaces must be acid resistant surfaces such as ceramic tiles, porcelain, brick, clay and quarry tiles, terracotta, concrete and other types of natural stones.

DIRECTIONS FOR USE

- 1) Dependent on degree of contamination, **Universeal Grout Haze Remover** can be used neat or diluted up to 1:10 with water.
- 2) Pre-wet the surface, apply generously and allow the product to dwell for a few minutes before agitating and rinsing off with plenty of clean water.
- 3) Repeat the process if necessary, if using **Universeal Grout Haze Remover** indoors ensure good ventilation during and after use.

Please Note: **Universeal Grout Haze Remover** is not suitable for use with or around acid sensitive surfaces such as enamel, zinc, chrome, stainless steel, polished marble and limestone, etc. Always protect these areas and test the product in an inconspicuous area to determine suitability for intended use.

COVERAGE

Dependent on contamination, used neat or diluted up to 1:10 with water.
