# SANDSTONE SEALER TECHNICAL APPLICATION GUIDE

## DESCRIPTION

### SUITABLE FOR ALL TYPES OF SANDSTONE PAVING, PATIOS & PATHWAYS

For all popular natural stone types including sandstone & limestone  
Quick drying easy application  
Durable, stain-resistant protection with a satin sheen finish  
Enhances natural colours  
Low odour water based formula

**Universeal Sandstone Sealer** is the ideal outdoor sealer for sandstone patio & paths. Quick drying, the natural sandstone colours will be delicately intensified whilst creating a durable satin finish.

**Universeal Sandstone Sealer** is a water-based polymerised protective nano coating that creates a durable finish on all types of outdoor natural sandstone. Very easy to apply, it is self levelling, resulting in a durable clear coating to protect against oil and water-based stains.

## DIRECTIONS FOR USE

- 1) **Always perform a test in an inconspicuous area on-site to check suitability of product, prior to use - read these instructions fully before application.**
- 2) The surface to be treated must be completely dry and clean.
- 3) Apply Universeal Sandstone Sealer thinly with a sponge, paint pad, brush or sprayer (**we do not recommend using a roller**). The sealer must be applied thinly and evenly, any puddling or pooling of the sealer must be distributed evenly across the surface before allowing to dry.
- 4) After 60-90 minutes check to see if the first application is touch dry and ready to receive a second coat. Repeat the process taking care not to overapply.
- 5) Always allow a minimum of 2-3 hours drying time before limited footfall to ensure maximum long-term protection.

**Please Note:** Application range: 5°C - 20°C. In colder conditions the drying time may be extended, do not walk upon or apply further coats until the sealer is completely dry. Always try product in an inconspicuous area on-site prior to use.

## COVERAGE

Apply undiluted, coverage up to 20m<sup>2</sup>/L per coat.  
Coverage will vary depending on surface texture and porosity.

## Usage Guidelines

Drying Time	Applications/Coats	Application Method	Dilution
45-60 mins	1-3 coats	Brush/ Sprayer/Paint Pad / Sponge	Undiluted

## PRECAUTIONS

### KEEP OUT OF THE REACH OF CHILDREN & PETS
