DECK CLEAN 60 TECHNICAL APPLICATION GUIDE

DESCRIPTION

TARGETED CLEANING TO ELIMINATE GRIME, ALGAE, BLACK SPOT & ORGANIC GROWTH FROM DECKING & OUTDOOR FURNITURE

*Suitable for composite decking, wood decking, cement fibre decking and other hard-wearing outdoor surfaces
Improved fast-working foaming formula
Easy to use with sprayer, mop, brush or sponge
Destroys organic growth and restores original finish – renews the look*

Universeal Deck Clean 60 is a professional foaming cleaner that targets grime and dirt deposits and also organic build-ups to restore your deck and other hard external surfaces.

DIRECTIONS FOR USE

- 1) Read these instructions thoroughly before proceeding. **ENSURE YOU HAVE ADEQUATE PERSONAL PROTECTION, IE GLOVES, SUITABLE PROTECTIVE EYE-WEAR, FACE MASK & CLOTHING.**
- 2) Prepare the area by clearing up and cleaning off loose debris.
- 3) Mix at a ratio of 1 part cleaner to 1 part water. Apply the product generously to the surface with a low pressure sprayer, brush or flat mop. A sprayer will provide optimal foaming results.
- 4) Leave the cleaner to dwell for at least 60 minutes, it can be left longer for stubborn stained areas. In cases of heavy contamination it may be necessary to reapply a second application before rinsing. Agitate lightly to remove any clinging surface deposits. Do not allow the product to dry completely, top up with more cleaner mix if needed.
- 5) Once fully clean, rinse thoroughly with plenty of tap water. The cleaning fluid can possibly harm vegetation or grass so try to avoid washing off onto garden or lawned areas. If this can't be avoided rinse away with lots of clean water to dilute the cleaner.

Please Note: do not apply **Universeal Deck Clean 60** contains an active ingredient that will stain fabrics and sensitive materials. Take special care to avoid contact with fabrics. Always try product in an inconspicuous area on-site prior to use.

COVERAGE

Up to 50m² per 5 litre
Depending on extent of contamination.

Usage Guidelines

Dwell Time	Applications/Coats	Application Method	Dilution
45-60 mins	1-2 applications	Brush/ Sprayer/Roller	1:1
